COSHH Yellow Hazardous / Flammable Storage Cabinets

A genuinely top-notch, UK manufactured product supplied with a Certificate of Conformity

Product Code: 07-0133

- » With a fully welded, heavy-duty steel construction that you'll benefit from for many years to come - you won't find any rivets or spot welding in this solid custodian of workshop safety!
- » There are 7 cabinet heights to choose from, with this 6ft tall being our best-seller
- » Buy wisely. Know what you're getting for your money and discover why Cabtek Cabinets provide you with quality, peace of mind and excellent value for money - here's a quick help:
- » Not all cabinets are made the same way. Take a moment to read our FAQ's online for important considerations about sumps and shelves and to help you get the right product for your requirements
- » Finished inside and out using high grade epoxy-polyester powder coating process for excellent durability
- » You can adjust the fully welded shelves in 25mm increments so you can store your different sized containers and they'll act as spill trays to catch any smaller spills too
- » Our cabinet base features a fully-welded, non-removable 50 litre built-in sump for the safe collection of any spillages
- » All doors are reinforced and close-fitting with 2-point locking and metal handles (2 x keys supplied)
- » Supplied fully assembled with flammable liquid warning labels
- » Shelves have a UDL / Safe load of 50kg - 3 shelves included with this cabinet
- » **Top tip:** If you are comparing other cabinets, check the style and the capacity of the sump and consider this as part of your risk assessment
