

GreenskeeperMAX

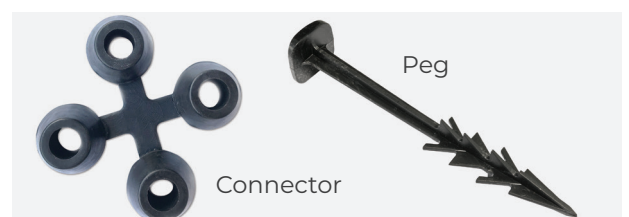

GreenskeeperMAX is an easy to install natural rubber matting, perfect for discreet soil retention and erosion control whilst also providing safety and added traction on steep paths. The moulded anti-slip cellular structure allows grass to penetrate, establishing a firm bond to the ground. Grass can easily be cut with a conventional mower once established, effectively hiding the mat. Connectors can be used to create any shape or size, whilst the pegs ensure the matting stays securely in place. GreenskeeperMAX is also the perfect solution for safety walkways on construction sites where a hard-wearing anti-slip ground protection is required.

Our 100cm x 150cm mats come in two thicknesses, 16mm and 23mm, with the 23mm option also available in a convenient 10.5 mtr roll.

The 23mm GreenskeeperMAX has been tested and passed the Critical Fall Height test - certified to EN 1177:2018.

Features

- **Typical applications:** Ideal for construction site walkways, golf courses, playgrounds and all outdoor spaces where anti-slip ground protection is needed.
- **Material:** Natural and recycled rubber.
- **Cleaning:** Wash with cold water, use vacuum cleaner, or use a pressure pump to remove dirt.
- **Sustainability:** Nature friendly, biodegradable & recyclable. REACH compliant.
- **Warranty:** Lifetime.

Suitable for outdoor use

Code	Metric	Imperial	Thickness	Weight	Type	Colour
06-0209-1	100cm x 150cm	3' x 5'	16mm	9.5kg	Mat	Black
06-0209-2	100cm x 150cm	3' x 5'	23mm	13.5kg	Mat	Black
06-0209-5	100cm x 10.5m	3' x 34'	23mm	84kg	Roll	Black
06-0209-4	6.5cm x 6.5cm	3" x 3"	20mm	0.03kg	Connector	Black
06-0209-3	14cm long, 30mm dia head	6" long, 1" dia head		0.03kg each	Peg (pack of 100)	Black

Please note, all Imperial sizes have either been rounded up or down to the nearest whole number

GreenskeeperMAX

Technical Specification

Slip resistant:	Exceptional slip resistance to level 3
Anti-fatigue:	Excellent anti-fatigue properties, resistant to level 3
Wear resistant:	Excellent wear resistance to level 3, suitable for heavy footfall
Water absorbent:	The cellular design allows water to drain easily
Connectable:	Yes, connectors are available to create larger widths
Cut to size:	Yes, mat can be cut to bespoke sizes
Disability friendly:	Yes, the low profile makes it suitable for wheelchair users
Wheeled area:	Yes, suitable for light wheeled vehicles and machinery
Environment:	Suitable for outdoor use
Impact resistant:	Yes
Product testing:	Critical Fall Height - certified to EN 1177:2018* - 23mm mat only
Sustainability:	<ul style="list-style-type: none">■ Nature friendly, biodegradable and recyclable■ REACH (Registration, Evaluation, Authorisation and Restrictions of Chemicals)
Cleaning:	Wash with cold water, use vacuum cleaner, or use pressure pump to remove dirt
